PPL design and deliver innovative, high quality plastic solutions.

Integrating the latest technology with our highly trained team, exceptional service and dynamic design-and-prototype process is guaranteed to meet expectations.

As New Zealand's leading profile extruder, PPL manufacture a wide range of premium industry products for the glazing, marine, roading, flooring and construction sectors, and custom design profiles for specialist applications.

Visit our website or talk to the team about your current or future plastic profile and injection moulding requirements.
